Virginia City—JAS. McDONALD.
Eureka—F. LOEWY & CO.

NO PAPER TO-MORROW.

In order that all connected with the Record may enjoy Thanksgiving Day, no paper will be issued from this office to-morrow.

THANKSGIVING DAY.

Thanksgiving Day, originally instituted by the Pilgrim Fathers, was formerly observed only in New England. In those days no one but Roman Catholics and Episcopalians, among Americans, observed Christmas, and Thanksgiving was made the great day of the year instead. The old Puritan prejudice against Christmas was passed away, and that festival is universally observed. At the same time Thanksgiving has also become well nigh universally observed, so that we have two holidays instead of one. Until of late years Thanksgiving Day was a State instead of a National holiday, and was appointed by the Governor of each State without regard to the others and often on different days, while many of the Governors failed to appoint any day. Since the war it has been customary for the President to recommend a day for National Thanksgiving and for the Governors to appoint the same day. It was only last year, however, that the Governor of New York appointed a different day from that fixed by the President. Of course he had a perfect right to do this, but it provoked such general dissatisfaction, that he issued another proclamation changing the day to agree with that appointed by the President. The observance of the day is more general each year, and there is no doubt but that it will be observed by more people this year than ever before.

Services appropriate to the day will be observed at the Episcopal Church to-day—Rev. H. L. Badger officiating. This being a legal holiday, the Courts stand adjourned till to-morrow, nor can any civil process be issued or served legally to-day.

AGAINST INCORPORATION.—The Virginia Enterprise, after copying a portion of our first article on the subject of town incorporation, proceeds to state its objection to the project. It says:

Now, this demand for the incorporation of new towns in the eastern counties of the State is no especial concern of ours; but we advise the people of Picoche and Eureka not to be at all hasty in the matter of incorporation. A municipal government is an expensive luxury, which might be dispensed with even in Virginia. One quarter of all the taxes paid by the property-owners of this city is for the support of a city government which affords them no protection which might not be secured almost without expense through the county authorities. But the question may be asked, "How are our streets to be kept in repair and a fire department maintained without a municipal government?" In answer, we refer the interests to "An Act to provide for the improvement of streets and alleys in the unincorporated towns and villages in the State of Nevada," approved March 10, 1865, and "An Act to create a fire department fund," approved March 9, of the same year. [Stat. Nev. 1864-5, pp. 328, 355.] Hence we advise the people of Picoche and Eureka to carefully consider the matter of incorporation before instructing their representatives to give them municipal governments.

While we are not disposed as yet to change our views on this subject, we very cheerfully give place to the candid views expressed by the Enterprise. We desire a full discussion of the subject, to the end that correct conclusions be reached. The laws referred to will receive our immediate attention.

UNFOUNDED REMOVS.—Last evening rumors were rife upon the streets that Brigham Young had been assassinated somewhere in Utah Territory, and that a lynching affair had just occurred in Eureka. Frequent inquiries were made at our office in regard to the rumors afloat. Finally at our request inquiries were made by the operator of the Western Union Telegraph Company in this place, and reply was received from Eureka that the report of the lynching at Eureka was untrue, and from Salt Lake came the answer that Brigham Young was alive.

THE NEW YORK WORLD takes strong ground in favor of a revival of the Democratic party upon the principles which gave it controlling power for forty years. It claims that the issues which were contented over by the Whigs and Democrats were never settled, and this is the time, now that war issues are actually dead things of the past, to settle them.

Matters in Louisiana are very much mixed just now. There are two sets of officers, two sets of Judges, and if there is any harm to come of being too much governed, Louisiana stands a fair show of being ruined.

The trial by jury bill has passed the French Assembly, and the Spanish Cortes promises a similar reform.

Telegraphic Dispatches.

SPECIAL TO THE POCHE DAILY RECORD

PACIFIC COAST.

Salt Lake, Nov. 27.—General preparations are making for the observance of Thanksgiving. Business will be suspended.

There has been much excitement here in regard to the fall in Raymond & Ely stock. Numerous Salt Lakeers are large holders and heavy losers.

There are further developments in the diamond hunting. Prominent citizens of San Francisco are charged with inventing the whole scheme.

Mining operations are flat. San Francisco, Nov. 27.—Joseph Harding, who shot and killed Claus Klerk, in San Mateo county, last April, has been declared insane, and sent to Stockton.

The wife of William Hurney, County Clerk, died yesterday, after a brief illness.

Capt. C. H. Hewitt has been elected Wharfinger.

The banks will be closed and business generally suspended in the city to-morrow.

San Francisco, Nov. 27.—The Secretary of the Original Diamond Discovery Company says that Company never owned or located any particular diamond fields; that their men must have picked up diamonds in the track of the Roberts party, whom they were following; and finally, that the Company acted in good faith with all.

M. S. Latham has paid back \$20,000, received by him from Gen. Colton for 500 shares of the Salted Diamond Stock.

Emil Strasser, the youngest of the boys so badly burned with phosphorus about a month ago, is dead. The others are nearly well.

Within a few days past four attempts have been made to burn the block bounded by Market, Second, Stephenson and Ecker streets.

EASTERN.

New York, Nov. 27.—Senator Sumner asserts his belief that there is the right man in the right place. He thinks the Government of France is fixed on a stable basis. He praises the French people, and says Thiers delighted him. Sumner's health is considerably improved.

Investigation into the nitro-glycerine explosion in Westchester county, results in the capture of the railroad conductor for having negligently expressed.

President Watson, of the Erie Railroad, does not intend to resign, but says additional suits against him are in preparation.

Barlow, Counsel for the Erie Co., says the suits against Gould will embrace a series of charges in connection with the Jefferson Railroad Co., the Glenwood Coal Co., Communiway Stock Yard Co., Sleeping Car Co., and other companies. There will also be charges against him in connection with the title of the Grand Opera House.

It is now pretty well established that Pevy, the missing Kentuckian, absconded, possibly to South America, with a considerable sum, intrusted to him at Louisville to settle New York obligations.

Chicago, Nov. 27.—New York's special state that Drew has settled his North-western shorts with Jay Gould at 125; also, positively, that H. V. Smith has settled, though not until late yesterday. It is stated that Drew's losses are not less than \$1,500,000 and Smith's \$2,000,000.

Commodore Vanderbilt expresses disgust over the conduct of his son-in-law, Clark, in going bail for Jay Gould. The Commodore has published a savage card about Gould, in which he says: "I have had him in one business transaction with Mr. Gould in my life. In July, 1868, I sold him a lot of stock, for which he paid me, and the privilege of a call for a further lot, which he also settled. Since then I have had nothing to do with him in any way whatever, nor do I ever mean to have, unless it be to defend myself. I have, besides, always advised all my friends to have nothing to do with him in any business transaction. I came to this conclusion after taking particular notice of his countenance." To a reporter who called on Vanderbilt to know if this card was authentic, he said: "I wrote it. You can print again that I knew Jay Gould was a damned little scoundrel the moment I set my eyes on him."

Passengers on the Baltic describe the storm of the 18th, which that vessel in common with many others encountered, as terrible in violence. Capt. Kennedy, who has crossed the Atlantic 133 times, says it was the worst storm he ever experienced.

Washington, Nov. 27.—The annual report of the Commissioner of Indian Affairs is quite lengthy. Its main feature relates to the Indian Policy of the Government, which it fully reviews. An exhaustive defense is made of the changes inaugurated by President Grant. A military force is stated to be necessary for the repression of hostile tribes, and urged that as they cease to be formidable the Government should extend over them rigid reformatory discipline to prevent them from falling into pauperism and crime. The policy of the Government in respect to hostile tribes is thought to have immeasurably resulted advantageously towards civilization. The ground is taken that the only hope of salvation to the Indians consists in their

submission. When the present roving tribes are reduced to a state of dependence they must be dealt with in accordance with the plan now being pursued towards the more tractable and friendly Indians which, it is contended, is the only true and permanent policy of the Government. The condition of the Indians who, being constantly invaded by the civilizing influences in the far west, is considered, and it is urged that the state of want to which the tribes are reduced should be provided for by directing the present pursuits consistent with the progress of civilization, and that the Government should supply them with subsistence during the period of the initiation experiment. It appears that exclusive of those of Alaska there are 300,000 Indians within the limits of the United States, of which number 97,000 are civilized, 25,000 semi-civilized; only 8,000 wholly uncivilized. The Commissioner says it belongs not to a sanguine but to a sober view of the situation, that three years will see the alternative of war eliminated, and the most powerful hostile bands of to-day thrown entirely helpless on the Government.

Boston, Nov. 27.—Nine bodies have been recovered from the ruins. Five of them have been identified. Nineteen bodies, supposed to be buried in the ruins, are still missing. Contributions for the Harvard College Fund now amount to \$103,000.

Detroit, Nov. 27.—The official vote of Michigan gives Grant 135,244; Greeley, 76,776; O'Connor, 2,852; Black, 1,256.

Columbus, O., Nov. 27.—The dry goods house of Brown & Dunn, High street, was entered by burglars last night, and robbed of lace and silk valued at \$5,000.

St. Louis, Nov. 27.—Mrs. Mary H. Burdette, N. Y. correspondent of the Missouri Republican, made her debut as a lecturer last night. She was well received.

The epizootic has appeared at Jacksonville, Ill., and Keokuk, Iowa.

The Council has authorized the issue of \$500,000, in six per cent. twenty year bonds, to indemnify the property owners for land and buildings on Third and other streets, condemned for the approaches to the St. Louis and Illinois bridge.

New York, Nov. 27.—Another silk factory in Patterson, N. J., failed yesterday—E. Walker & Co., manufacturers of ribbons; liabilities very heavy.

Washington, Nov. 27.—The second meeting of the Mechanics and Workmen's National Council was held here last night. All trades and labor interests were represented. The Council elected N. E. Redstone President, George Lovelace and R. H. Merrill Vice Presidents, for the ensuing year. The Council will convene every two weeks. The delegates from all mechanical and labor associations throughout the Union will be admitted to seats, and be entitled to hold them till succeeded by other delegates; thus continuing in session for the consideration of the interests of the mechanics and laboring classes. The action of the Council thus far promises good results.

Cincinnati, Nov. 27.—Michael Moore, convicted of the murder of his wife last spring, at Ebsenburg, Pa., was hanged to-day in the county jail yard of that borough. He made no confession.

Coshocton, O., Nov. 27.—The express passenger train on the Miami Railroad, which left Cincinnati last night at 9:45, collided near this place with a freight train going east. The engine, tender and express car, passenger and engine cars, and several freight cars, were completely wrecked. Engineer Gates, of Newark, was killed, and a fireman was badly hurt.

New York, Nov. 27.—Horace A. Clark, in his testimony yesterday before the referee concerning the arrest and proceedings against Jay Gould, said, that previous to the Boston fire, Smith, Drew, Travers and others were short of North-western. They knew that Gould was long after the fire. Smith and his party bought the lost stock, thinking they could sell it at advantage in case of panic on the 23d of November. He was told that Gould was to be arrested. Therefore, to avert the panic which would be likely to follow in the stock exchange, he and Mr. Schell decided to bail Gould. He judged that the arrest was a stock-jobbing transaction.

FOREIGN.

Paris, Nov. 27.—The Cabinet to-day deliberate on the report of the majority of the Committee on the Address, and the resolution of the minority. Thiers will attend the Assembly to-morrow, when the report of the majority comes up. The vote, yesterday, postponing the immediate consideration of the report, allayed the excitement. Many believe the crisis is passed. Paris is quiet this morning. The provinces are also reported tranquil.

Halifax, Nov. 27.—Several horses died here to-day of distemper. The street cars have stopped.

Paris, Nov. 27.—30 members of the Compromise Committee will prepare the necessary reformatory constitutional measures in reply to Thiers's message.

London, Nov. 27.—The steamship City of Paris arrived last night from Liverpool. A storm prevented her touching at Queenstown.

Halifax, Nov. 27.—The storm on the coast still continues. Three steamship disasters are reported.

FATAL AFFAIR.—The Virginia Enterprise contains an account of a difficulty between Scotty and Beard, two teamsters who left Wadsworth for Belmont with freight. The Enterprise continues:

On the way a difficulty occurred between them. Scotty telegraphed to Ryan as follows: "I am shot and Beard is dead. Come and get your team." Ryan departed immediately for the scene of hostilities, and has telegraphed back to his family a confirmation of the news transmitted to him by Scotty. He states further that while Beard is dead, Scotty is mortally wounded. Scotty is well known in this city, having driven a six-horse team for Breed & Crosby for some time, between this city, Reno and Steamboat Springs. The fatal affair is reported to have originated about a woman. Further particulars will be published as soon as received.

DIAMONDS.—Various stories are telegraphed to the Eureka Sentinel about diamonds. The first is that A. C. Stanton had reached San Francisco with a \$250,000 ruby and other stones valued at a million. Next it is stated that the Harpending & Lent Company are preparing for future operations. Then comes the astounding statement communicated in the report of Colton, King, Post and Fry to the New York and San Francisco Mining and Commercial Company declaring the whole diamond story a stupendous fraud. Whereupon the Trustees held a meeting and denounced the whole thing as the most gigantic of frauds, and warning people to avoid it.

SUICIDE.—We regret to announce the death of Edward Garnett, an old and respected resident of this county, who committed suicide on the 18th inst. It would seem that Mr. Garnett stood before a mirror, and, placing a pistol to his mouth, discharged it, the ball ranging upwards and lodging in the brain. The deceased was a man of superior education, well known throughout the county, and loved and regretted by a large circle of acquaintances.—[Elko Independent, 23.]

THE Civil Code of California legalizes cohabitation as marriage without solemnization. This is an innovation upon time-honored custom and usage which we very much fear will lead to bad results. Its tendency is to give adulterers a pretext to mislead young girls possessed of more beauty than brains.

New Advertisements.

WANTED

TO KNOW THE WHEREABOUTS OF THOS. Wells Taylor or "Tom Taylor," who owned mining claims at Rabbit Creek, California, and who ran a passenger train from said place to Quincy, Cal., in 1865. He will find it greatly to his interest to call at once upon the undersigned.

D. I. WILLIAMS, November 24th, 1872.

Chief East Extension Mining Company, Lincoln County, State of Nevada. Notice.—The first Annual Meeting of the stockholders of the above named Company, for the purpose of electing Trustees for the ensuing term, will be held on Friday, the sixth day of December, 1872, at one o'clock p. m., at their office, No. 414 California street, San Francisco, California.

San Francisco, November 24th, 1872.

J. WEGENER, Secretary.
